***Creating Community in the  
New Age***

**The Age of Aquarius will be an  
entirely new way of  
communicating, sharing,  
connecting and co-creating.**

**The basis of the new paradigm  
will all about authenticity +  
frequency. This means that our  
new communities and  
connections will be a  
vibrational match to us, based  
on our authentic soul  
expression.**

## ***Creating Community in the New Age***

**We will be breaking ties from many of the “traditional” ways of creating community, which was previously based on lineage, culture, religion, nationality or socioeconomic status.**

**We are no longer tied to any community that does not resonate with us, or does not match our authentic vibration.**

## ***Creating Community in the New Age***

**The new communities formed will include all different types of people and different backgrounds! Everyone will be treated as equal, as all will play their unique role within the community + service to the whole.**

**We will need to transcend all boundaries of judgment and belief systems to be able to once again love one another as human beings.**

## ***Creating Communities Online***

**Aquarius rules information + also is connected to the internet and technology. We will see a huge surge in internet based communities that will help:**

- connect others who are like hearted**
  - share information that resonates with that community**
  - collaborate + co create**
  - inspire connection across the world**
- 

## ***Creating Communities Online***

**If you are looking to create an online community, the most important part is to begin with self.**

**What are your passions?  
What is your purpose?**

**Expressing + sharing your most authentic self while also providing information/services/assistanc to a wider audience will help build your community**

## ***Creating Communities Online***

**Share is caring. In the Age of Aquarius, the more we share of our personal authentic selves, our stories, our passions, our creations, our services, the more we will be able to find and connect with those we resonate with.**

**Discovering your personal “platform” will help you begin on your journey of online community building**

## ***Creating Communities Online***

**Platforms include:**

- Facebook**
- Instagram**
- Twitter/X**
- Tik Tok**
- Youtube/Rumble**
- Telegram**
- Spotify/Podcast**

**Each platform has its own type of energy, which may or may not resonate with you. Each being must decide what platforms are in resonance for their energy.**

## ***Creating Communities Online***

**Trying different platforms can be a trial + error process. Many platforms still engage in censorship, so we have to be aware of what we intend to share and therefore decide which platform is the best match for the information/service we provide.**

**Once you discover what platform is best for you, commit to building upon it!**

## ***Creating Communities Online***

**Content Creation will be a big theme of the Age of Aquarius. We may see less of a focus on products + material consumption (except for aligned + authentic products), and more of a focus on the sharing of information + the providing of services.**

**Creating community is not about “selling” anything, but about the sharing of your unique essence which will naturally draw in the right people, places + things.**

## ***Creating Communities Online***

**All of us have a story to share, wisdom + experience, and a passion and purpose.**

**The more we share these + live them, the more we will inspire others to do the same, and the more community we will attract.**

**The goal of online communities is simply to create connections for many who have not yet built the in-person networks.**

## ***Creating Communities In Person***

**Creating in-person communities will also be a theme of the Age of Aquarius. Many will feel the call to relocate to areas that match their vibration and their soul is drawn to.**

**Follow your heart + your guidance as to what location your soul is calling you to.**

**This will take time, but the first step to creating in-person communities is to start meeting like hearted souls.**

## ***Creating Communities In Person***

**Go to the places you are drawn to go, whether that is a certain grocery store, bookstore, restaurant, park, farmer's market, etc. Be open to meeting others synchronistically.**

**Hosting a group or gathering is also a great way to meet others in your area to begin building community with! Often our online communities support the in-person gathering events.**

## ***Creating Communities In Person***

**Finding like hearted souls who share similar interests, passions and visions will begin to start their own communities.**

**This can be through:**

- Renting or buying homes together**
  - RV Living + sharing**
  - Purchasing of land together**
  - Renting or purchasing homes next to one another**
  - Constructing or buying of tiny homes on land**
  - Creating homeschooling PODs**
  - Creating local clubs**
- 

## *Hosting Communities*

**If you already own land and/or a dwelling with extra space you may:**

- Invite others to build upon or live upon the land (RV's, tiny homes, etc.)**
  - Invite others to work on the land (food growing, land cultivation, animal care).**
  - Open up the land for community gatherings such as markets, festivals, lunches, meditation circles, etc.**
